to suit the widest range
of ventilation applications

**new products
available**

Products for a wide range of applications

We provide, without doubt, the most comprehensive choice of ventilation systems available in the UK.

The Airvent range covers air movement, ventilation technologies and commercial hand dryers, along with our latest outdoor heating and pest control for residential and light commercial applications.

automatic hand dryers

jet hand dryer junior

**Automatic double sided, high speed dryer,
for low traffic settings.**

Key features:

- Approximately 10-12 seconds drying time
- LED indicator
- 99.9% HEPA filter
- UV Sterilisation

Technical specification:

- Brushed motor, as low as 1250W to 1650W
- Removable drip tray
- Air speed 150m/s
- Antibacterial coating
- IP23 Rated
- Weight 8.8kg
- Sound Level 70dB(A) at 1m
- Heater element 400W adjustable on/off
- Cable entry bottom right

Dimensions:

H671 x W279 x D195mm

Cat No	Description	Size HxWxD (mm)
499240	Automatic double sided hand dryer	671x279x195

jet hand dryer

This automatic double sided high speed, low energy hand dryer has been designed for use in many installations where speed and comfort of drying is of paramount importance.

Key features:

- Approximately 10 seconds drying time
- Unique "blue dry zone" indicator
- Powerful Operation
- Fitted with Anti-bacterial dust filter
- Low energy usage
- 2 speed & 2 heat settings
- LED Indicator

Technical specification:

- Lo-Carbon DC Motor 750W-2050W
- 99.9% HEPA Filter
- UV Sterilisation
- 10 seconds drying time
- LED indicator
- Removable drip tray
- Air speed 95m/s
- Antibacterial coating
- IPX4 Rated Product range details:
- Rating Range @ 230volts 50/60Hz. 750 – 2050 watts
- Supply Voltage 220-240V 50Hz
- Heater Element- Can be switched off completely or adjusted 900-1300 watts
- Weight 9.5kg
- Sound Level 75dB(A) at 1m

Dimensions:

H700 x W300 x D225mm

Cat No	Description	Size HxWxD (mm)
409393	Automatic double sided hand dryer	700x300x225

ecoswift fast dry dryer

High quality robust hand dryer ideal for use in many applications where fast hand drying and energy saving is essential.

Key features:

- Automatic infra-red sensing
- Approximately 10-12 seconds drying time
- Steel cover white powder coated
- Powerful Operation
- Blue LED sensing zone
- Internal UV Protection
- Infra-red touch free activation
- Intelligent activation of heating element. Element switches on when the ambient temperature is 25°C or less

Technical specification:

- Insulation Earthed Class I
- GS Approved
- IPX1 Rated
- CE marked in accordance with all the relevant EEC Harmonised Directives
- Air velocity 60m/s

Product range details:

- Rated at 1150 Watts
- Supply Voltage 220-240V 50/60 Hz
- Weight 3.0kg (3.5kg packed)
- Motor 25000rpm brushed motor
- Sound level 75DbA at 1m
- Sensor Range 5-20cm

Dimensions:

H260 x W180 x D152mm

Cat No	Description	Colour	Size HxWxD (mm)
409733	1.1kW Compact ecoswift	White	260x180x157
409734	1.1kW Compact ecoswift	Satin Stainless Steel	260x180x157
409735	1.1kW Compact ecoswift	Polished Stainless Steel	260x180x157

tornado fast dryer

This automatic dryer is one of the fastest dryers and eco friendly in the market place. Available in 3 models - polished stainless steel, satin finish stainless steel and white namelled finish.

Key features:

- 10-12 seconds drying time
- Blue LED for hand drying range
- Powerful Operation

Technical specification:

- Insulation Earthed Class I
- TUV/GS Approved, RoSH Compliant
- CE marked in accordance with all the relevant EEC Harmonised Documents
- IPX1 Rated
- Motor 700 watts
- Warm Air Speed Output 75-100m/s
- Air velocity 116m³/hr

Product range details:

- Motor Thermal Protection auto resetting at 105°C
- Supply Voltage 220-240V 50Hz
- Rated at 1.6kW at 240V
- Element 450-900 watts adjustable
- Weight 5.8kg (6.6kg packed)

Dimensions:

H277 x W201 x D175mm

Cat No	Description	Colour	Size HxWxD (mm)
437656	1.6kW Tornado	White	277x201x175
437661	1.6kW Tornado	Satin Stainless Steel	277x201x175
437659	1.6kW Tornado	Polished Stainless Steel	277x201x175

automatic hand dryer

High quality robust hand and face dryers ideal for use in many applications.

Key features:

- Approximately 23 second dry time
- Infra –red touch free activation
- Blue LED dry zone indicator
- Rotating nozzle for hand or face drying
- Steel construction with chrome plated nozzles for added durability
- Anti-tamper fixing screws

Technical specification:

- Insulation Earthed Class I
- GS Approved
- IPX1 Rated
- CE marked in accordance with all the relevant EEC Harmonised Directives
- Air velocity 60m/s

Product range details:

- 2.3kW Output
- IPX Rating
- 70dBA at 1m
- Airspeed 26 m/s

Dimensions:

H237 x W270 x D208mm

Cat No	Description	Colour	Size HxWxD (mm)
477639	2.3kW Automatic hand dryer	White	237x270x208
477640	2.3kW Automatic hand dryer	Polished Stainless Steel	237x270x208

automatic eco fast hand dryer

This automatic dryer is most probably the smallest, most energy efficient and quickest hand drying model in the market.

Key features:

- 10-12 seconds drying time
- Low energy usage
- Powerful Operation
- Saves up to 75% energy costs against a conventional dryer

Technical specification:

- Insulation Earthed class 1
- IPX1 rated
- Air velocity 113m³/hr
- TUV/GS Approved, RoSH Compliant
- CE marked in accordance with all the relevant EEC Harmonised Documents
- Warm Air Speed Output 75-100m/s

Product range details:

- Rated 1.0Kw at 220V
- Supply Voltage 220-240V 50Hz
- Sound level 75dBa at 1 metre
- Weight 3.8kg (4.2kg packed)
- Motor Thermal Protection auto resetting at 105°C
- Motor 500W
- Element 500W

Dimensions:

H180 x W250 x D138.5mm

Cat No	Description	Colour	Size HxWxD (mm)
444769	1.0kW Automatic eco fast dryer	Epoxy Coated	180x250x138.5

automatic hand dryer

This is a 'no touch' hand dryer with ABS cover. Ideal for applications where economy, hygiene, convenience and safety are of prime concern.

Key features:

- Approximately 30 seconds drying time
- Finish white gloss ABS cover
- Quiet Operation
- Hygienic
- 2 Year Warranty

Technical specification:

- Earthed class 1
- IP22 rated
- Air velocity 110m3/hr
- CE marked in accordance with all the relevant EEC Harmonised documents universal motor
- GS approved

Product range details:

- Motor 4800rpm induction motor
- Supply Voltage 220-240V 50Hz
- Sound level 56dBA at 1m
- Weight 3.3kg (3.65kg packed)

Dimensions:

H275 x W225 x D160mm

Cat No	Description	Colour	Size HxWxD (mm)
429022	1.25kW Automatic hand dryer	Gloss White	275x225x160
496870	2.0kW Automatic hand dryer	Gloss White	275x225x160

automatic hand dryer

This automatic hand dryer has been specifically designed for food preparation areas and hospitals where the highest levels of hygiene have to be observed. Automatic no-touch hand dryer.

Key features:

- Approximately 30 seconds drying time
- Cover satin polished stainless steel
- Quiet Operation

Technical specification:

- Insulation Earthed Class I
- BEAB Approved
- IP24 Rated
- CE marked in accordance with all the relevant EEC Directives
- Air velocity 200m³/hr

Product range details:

- Rated at 2.0kW at 240V
- Supply Voltage 220-240V/1/50Hz
- Weight 4.0kg (4.5kg packed)
- Motor 2700rpm external rotor motor
- Sound Level 65dB(A) at 1m

Dimensions:

H280 x W270 x D148mm

Cat No	Description	Colour	Size HxWxD (mm)
441356	2.0kW Automatic hand dryer	Stainless Steel	280x270x148

fast hand dryer

A robust, energy saving dryer suitable for many applications such as factories, shops, hotels, restaurants, airports and railway stations. Generally these dryers can be used in high usage areas where durability and energy efficiency is important

Key features:

- 10-12 seconds drying time
- Blue LED for hand drying range
- Powerful Operation
- Intelligent Heating Element. Automatically turns off if ambient temperature is above 25°C.
- Touch Free
- Includes an antibacterial HEPA Filter. Kills 99.9% of germs
- Brushed motor- 20000rpm

Technical specification:

- Insulation Earthed Class I
- Third Party Approved, RoSH Compliant CE marked in accordance with all the relevant EEC Harmonised Documents
- IPX1 Rated
- Warm Air Speed Output 70m/s

Product range details:

- Rated at 1.20kW- 1.45kW at 220- 240V
- Supply Voltage 220-240V 50Hz
- Heating Element 650-750W
- Motor 550W-650W

Dimensions:

H312 x W225 x D172mm

Cat No	Description	Colour	Size HxWxD (mm)
499241	1.2kW Automatic	White	312x225x172
499242	1.2kW Automatic	Satin Steel	312x225x172

ceiling sweep fans

reversible ceiling fan

Our ceiling fans will provide effective and positive air movement to improve the working environment particularly during Summer months. In addition, our ceiling fans can be used during the Winter to recirculate hot air from under ceilings and roofs down to living and working areas thus helping to conserve energy.

An infinitely variable speed controller is available for use with one or a combination of models up to 3 units. Alternatively, our ceiling fans may be wired directly to a normal On/Off switch. For maximum benefit, good ventilation is vital, we advise that our ceiling fans are used in conjunction with supplementary ventilation units.

Our ceiling fan blades are produced from sheet steel and individually weighed to produce matched sets.

Key features:

- Suitable for winter De-stratification applications or summer cooling
- Three sweep diameters: 900mm, 1200mm, and 1400mm
- Two down rod lengths included
- Easy to install
- Quiet running
- Can be installed for either upward or downward airflow
- Reversible electronic controller available

Technical specification:

- Sweep Dia. 1200mm
- Colour White
- Air Displacement m³/h 12600
- Max. Watts Amps @ 240v 0.27

controller

Ceiling fan control. White cover plate can be flush or surface mounted. Suitable for commercial environments.

Key features:

- Controls up to 3 fans

Cat No	Size
444122	36 inches
444123	48 inches
444124	56 inches

Cat No	Description
499301	Controls up to 3 fans

domestic range

axial fan

100mm Axial standard extract fan suitable for panel mounting or wall/window mounting using the appropriate accessory kit.

Key features:

- Wall or ceiling mounting
- All non pull-cord variants can be ceiling mounted
- High quality ABS mouldings
- With external gloss finish
- Quiet Operation

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP44 rated, BEAB Approved, and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Window 105mm, Wall 115mm
- Airflow: Panel Mount 88m³/hr, Window/Wall 543m³/hr

Product range details:

- Rated Voltage 220-240v-50Hz
- Rated Wattage 16W
- Motor speed 2100rpm
- Noise Level 30dB(A)

Accessories:

- Window Kit
- Wall Kit
- External wall grille
- External gravity wall grille
- Ducting

Dimensions:

H154 x W154 x D47mm

Cat No	Description	m ³ /hr	Ltr/s	Watts	dB(A)@3m

459318A	Standard fan plus humidistat, pull cord and shutters	88	24.44	20	32

axial fan

150mm Axial extract fan with pull cord and electronic overrun timer adjustable from 1 minute to 25 minutes, the factory setting is 15 minutes. Suitable for panel mounting or wall/window mounting using the appropriate accessory kit.

Key features:

- Suitable for panel, wall or window mounting
- All non pull-cord variants can be ceiling mounted
- High quality ABS mouldings with external gloss finish
- Quiet Operation
- Reversible grommet for surface of flush mounting

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP22 rated, BEAB Approved, and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Window 160mm, Wall 170mm
- Airflow: Panel Mount 245m³/hr, Window/Wall 220m³/hr

Product range details:

- Rated Voltage 220-240v-50Hz
- Rated Wattage 25W

Accessories:

- Window Kit
- Wall Kit
- External wall grille
- External gravity wall grille

shower fan kit

100mm, axial, inline, shower fan kit with remote switching.

Key features:

- Fan, two grilles, fixings and 3m flexible, PVC ducting
- Quiet operation

Technical specification:

- Meets the installed performance requirements of Building Regulations Document F for an inline fan. IP44 rated. CE marked in accordance with all the relevant EEC Harmonised Directives. Double insulated, class II motor fitted with Thermal Protection
- Hole Diameters: Wall 115mm
- Airflow Installed: 82m³/hr installed
- Airflow, fan only, free air: 108m³/hr

Product range details:

- Rated Voltage 220-240v-50Hz
- Rated Wattage 14W
- Noise Level 37dB(A)

Grille Dimensions:

170 x W170 x D60mm

434446A	Inline standard fan plus timer	85	23.61	14	41

centrifugal fan with timer

100mm standard centrifugal fan with adjustable electronic overrun timer (1–20 minutes). Suitable for use in toilets, cloakrooms, bathrooms and shower rooms.

Key features:

- Wall or Ceiling Mounting
- Suitable for wall or ceiling mounting
- High Impact ABS mouldings with external gloss finish
- Integral Backdraught Shutter
- Long Life Motor
- Flush or Surface Mountable
- Adjustable 98mm rear or side exit spigot

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP44 rated
- BEAB Approved
- CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Wall 117mm
- Airflow: 75m³/hr

Product range details:

- Rated Voltage 220-240v-50Hz
- Rated Wattage 11W
- Noise Level 36dB(A)

Accessories:

- Wall Kit
- External wall grille
- Flexible Ducting

Dimensions:

H256 x W210 x D100mm

Cat No	Description	m ³ /hr	Ltr/s	Watts	dB(A)@3m
AC100TN	Single speed fan with electronic over run timer	75	20.83	11	36

domestic range

part L compliant

These part L series of fans meet all the revised energy efficiency levels for new build and refurbishment applications as introduced in 2010, still allowing all other products to support the substantial replacement ventilation market

centrifugal fan

100mm filterless continuous running centrifugal fan has been designed for energy saving and to reduce condensation in the home and improve indoor air quality. The unit provides silent, continuous ventilation to any W.C., bathroom, utility room or kitchen. The unit can be supplied in mains and SELV versions.

Key features:

- Designed to run continuously with a boost function to comply with part F & L
- Rated Voltage 220-240v-50Hz
- Rated Wattage 1.5W on trickle, 2.5W on low boost and 8W on high boost
- Low Trickle - 24.0dBA
- High Trickle - 25.9dBA
- Boost - 38.5dBA

Dimensions:

H265 x W210 x D90mm

Cat No	Description	Speed	Watts	dB(A)@3m

		High	2.5	25.9
		Boost	8	38.5
409738	SELV Standard fan plus humidistat plus pull cord	Low	1.5	24
		High	2.5	25.9
		Boost	8	38.5

mixed flow fan

100mm mixed flow high performance extract fan suitable for use in restricted spaces such as ceiling voids traditionally found in refurbishments.

Key features:

- Integral foot plate provides secure, fast mounting
- Spigot designed for speedy installation of flexible ducting
- Mixed flow fans develop greater pressure than conventional axial fans making them ideal for use in ducted systems
- 3 Speed fan setting

Technical specification:

- Meets the requirements of Building Regulation Document F and L
- IPX4 rated CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated with motor fitted with Thermal Protection

Performance:

- High Speed: 245m³/h
- Low Speed: 180m³/h

Product range details:

- Rated Voltage 220-240v-50Hz
- High Rated Wattage 25W, Low Rated Wattage 20W
- High Speed Noise Level: 24dB(A) @ 3m, Low Speed Noise Level 20dB(A) @ 3m

Available Accessories:

- Wall Kit
- External wall grille
- Flexible Ducting
- Diameter of spigot: 98mm

Dimensions:

H180 x W168 x D298mm

Cat No	Description	Speed				
		m ³ /hr	Ltr/s	Watts	dB(A)@3m	
442825	Inline standard fan 45Ltr per second	High	244	67.78	25	24

442826	Inline standard fan 45Ltr per second plus timer	High	244	67.78	25	24
		Low	180	50	20	20

humidistat axial fan

100mm axial extract fan with Humidity control which is adjustable between 40%RH and 95%RH complete with adjustable timer (1-20 mins) designed to meet the new part L building regulations, for use in bathrooms and toilets.

Key features:

- SFP down 0.42W/l/s
- Suitable for wall or ceiling mounting
- High Quality ABS moulding with external gloss finish
- Quiet Operation
- Comes complete with backdraught shutter

Technical specification:

- Meets the requirements of Building Regulation Document F and L
- IP44 rated and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Airflow: 91.8m³/hr

Specific Fan Power (SFP) Requirements:

- Mechanical ventilation systems should be designed to minimise electric fan power. Specific fan power (SFP) should not be worse than:
 - 0.5 Watts per litres per seconds for intermittent extract ventilation systems
 - 0.7 Watts per litres per seconds for continuous extract ventilation systems
 - 1.5 Watts per litres per seconds for continuous supply and extract with heat recovery ventilation systems

Product range details:

- Rated Voltage - 220-240v-50Hz, Rated Wattage - 10.77W
- Motor speed - 2400rpm, Noise Level - 41dB(A)
- Max. Operating Temp - 40°C, Max. Pressure - 20Pa

Dimensions:

448384	150mm Standard fan plus humidistat	230	63.89	18	40

new product

quiet fan conceal x5

The Quiet Fan X5 Conceal is the latest in domestic ventilation to incorporate a high extraction rate whilst producing an incredibly quiet running volume. Designed for wall and ceiling mounting, this comprehensive range is ideal for bathrooms and toilets.

Key features:

- Wall or ceiling mounting
- High quality ABS thermoplastics for strength and durability
- Quiet operation

Technical specification:

- IPX5 rated for compliant zone 1 installation
- Long life motors warranted for a minimum of 30,000 hours or 3 years
- Integral backdraught shutters
- Airflow: 75m³ /hr, 21 litres per second
- SFP: 0.29W/l/s
- Complies with both Part F & L

Product range details:

- Rated voltage 220-240v-50Hz
- Rated wattage 6W
- 28dB(A) at 3m

Dimensions:

H160 x W160 x D40mm

Cat No	Description	m3/hr	Ltr/s	Watts	dB(A)@3m
412442	Standard fan 21Ltr per second	75	21	6	28
412443	Standard fan with timer 21Ltr per second	75	21	6	28
412444	Standard fan with Humidistat timer 21Ltr per second	75	21	6	28

inline axial shower fan kit

Designed for the safe ventilation of bathrooms, toilets and shower rooms, by removing any risk of an electric shock in wet areas as the fan is mounted remotely.

Ø100mm, axial, inline, shower fan kit with electronic overrun timer adjustable from 1 to 20 minutes (the factory setting is 15 minutes). Includes fan with mounting foot, PVC flexible ducting, 2 white grilles, grille fixing clips and screw plugs.

Technical specification:

- Meets the installed performance requirements of Building Regulations Document F and L for an inline fan
- IP44 rated. CE marked in accordance with all the relevant EEC Harmonised Directives.
- Double insulated, class II motor fitted with Thermal Protection
- Airflow: Maximum 24ltrs per seconds installed
- Sound: 40dBA at 3 metres

Specific Fan Power (SFP) Requirements:

- 1.0 a. Mechanical ventilation systems should be designed to minimise electric fan power. Specific fan power (SFP) should not be worse than:
 - 0.5 Watts per litres per seconds for intermittent extract ventilation systems
 - 0.7 Watts per litres per seconds for continuous extract ventilation systems
 - 1.5 Watts per litres per seconds for continuous supply and extract with heat recovery ventilation systems

Product range details:

- Rated Voltage: 220-240V 50Hz
- Motor: 2400rpm
- Rated Power: 10.4W
- Maximum Pressure: 20 p.a.
- Maximum Operating Temperature: 40°C

Cat No	Description	m3/hr	Ltr/s	Watts	dB(A)@3m
448385	100mm Inline standard fan	86	24	10	41
448386	150mm Inline standard fan	227	63	20	40

led shower fan & light kit

This powerful 100mm in-line LED shower fan and light kit with timer, is designed for the safe ventilation of bathrooms, toilets and shower rooms by removing any risk of an electric shock in wet areas as the fan is mounted remotely.

Key features:

- SFP down to 0.43W/l/s
- Incorporates an integral adjustable electronic timer (1-20 mins)
- Quiet Operation
- Limited to 1.5mtrs of ducting when connected to an axial fan

Technical specification:

- Meets the requirements of Building Regulation Document F and L
- IP44 rated
- CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II
- Motor fitted with thermal protection
- Airflow: Maximum 24 lts/sec

Product range details:

- Rated Voltage 12 volt DC 3WMR16 lamp. Powered by an LED driver
- Maximum Pressure – 20Pa
- Rated Wattage- 10.4watts
- Sound Volume- 41dB(A)
- Max Operating Temp – 40°C

Kit Comprises of the following:

- In Line 100mm shower fan
- White/Chrome fitting Shower Light and fitting
- 12 Volt Transformer
- 1.5mtrs PVC Ducting
- Butterfly clips, cable ties and screw plugs
- External Grille

Specific Fan Power (SFP)

Requirements:

- 1.0 a. Mechanical ventilation systems should be designed to minimise electric fan power. Specific fan power (SFP) should not be worse than:
 - 0.5 Watts per litres per seconds for intermittent extract ventilation systems
 - 0.7 Watts per litres per seconds for continuous extract ventilation systems
 - 1.5 Watts per litres per seconds for continuous supply and extract with heat recovery ventilation systems

Cat No	Description	m3/hr	Ltr/s	Watts	dB(A)@3m
477523	Inline standard fan plus timer complete with LED light kit, white and chrome bezels	86	24	10.4	41

flow fan with shower fan and light kit

100mm Inline mixed flow fan plus timer with LED shower and light kit.

Inline mixed flow fan

Key features:

- Integral foot plate provides secure, fast mounting
- Spigot designed for speedy installation of flexible ducting
- Mixed flow fans develop greater pressure than conventional axial fans making them ideal for use in ducted systems
- 3 Speed fan setting

Technical specification:

- Fully Building Code Compliant
- IPX4 rated CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated with motor fitted with Thermal Protection

Product range details:

- Rated Voltage 220-240v-50Hz
- High Rated Wattage 48W
- Low Rated Wattage 28W
- High Speed Noise Level: 35dB(A) @ 3m
- Low Speed Noise Level 21dB(A) @ 3m
- High Speed: 500m³/h
- Low Speed: 240m³/h

Accessories:

- Wall Kit
- External wall grille
- Flexible Ducting
- Diameter of spigot: 98mm

Dimensions:

H230 x W175 x D260mm

LED shower and light kit

Key features:

- SFP down to 0.43W/l/s
- Incorporates an integral adjustable electronic timer (1-20 mins)
- Quiet Operation
- Limited to 1.5m of ducting when connected to an axial fan

Technical specification:

- Meets the requirements of Building Regulation Document F and L
- IP44 rated
- CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II
- Motor fitted with thermal protection
- Airflow: Maximum 24 lts/sec

Product range details:

- Rated Voltage: 220-240V 50Hz
- Rated Power: 10.4W
- Maximum Pressure: 20 p.a.
- Sound Volume- 41dB(A)
- Maximum Operating Temperature: 40°C

Specific Fan Power (SFP) Requirements:

- 1.0 a. Mechanical ventilation systems should be designed to minimise electric fan power. Specific fan power (SFP) should not be worse than:
 - i. 0.5 Watts per litres per seconds for intermittent extract ventilation systems
 - ii. 0.7 Watts per litres per seconds for continuous extract ventilation systems
 - iii. 1.5 Watts per litres per seconds for continuous supply and extract with heat recovery ventilation systems

low profile range

slim axial fan

Slim axial extract fan with backdraught shutters. Suitable for panel mounting or wall mounting using the appropriate accessory kit.

Key features:

- Slim - only 15mm thick
- Suitable for wall or ceiling mounting
- High Quality ABS mouldings with external gloss finish
- Quiet Operation

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP44 rated, BEAB Approved, and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Wall 115mm
- Airflow: Panel Mount 90m³/hr

Product range details:

- Rated Voltage 220-240v-50Hz
- Rated Wattage 16W
- Noise Level 37.8dB(A)

Accessories:

- Wall Kit
- External wall grille
- External gravity grille
- Ducting

standard slim axial fan

Slim axial extract fan with backdraught shutter and humidity sensor. Suitable for panel mounting or wall mounting using the appropriate accessory kit. The humidity setting is adjustable 60%RH to 90%RH. The factory setting is 75% RH.

Key features:

- Slim, only 15mm thick
- Wall or ceiling mounting
- High quality ABS mouldings with external gloss finish
- Quiet Operation

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP44 rated, GS Approved, and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Wall 155mm
- Airflow: Panel Mount 216m³/hr

commercial range

commercial fan

230mm fan with automatic operated shutters suitable for panel, wall or window mounting using the appropriate accessory kit. Suitable for commercial applications in pubs, hotels, restaurants, offices, schools, shops and factories.

Key features:

- Suitable for panel/wall mounting or window mounting with appropriate window accessory kit
- Simple installation
- External 2 speed reversible on/off controller available
- Manufactured impact resistant high gloss ABS for strength and durability
- Motor fitted with thermal over load protection

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP44 rated, DEMKO Approved, and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Window 260mm, Wall 280mm
- Panel Mount Airflow: 259l/sec, Window/Wall Mount Airflow 190l/sec

Product range details:

Lo-watt PIV system

The Positive Input Ventilation (PIV) unit has been designed to prevent and treat condensation and mould quickly. It is perfect for refurbished properties thanks to it being easy to fit for installers and discreet for homeowners. The unit offers a quick and simple solution as it draws fresh air from the loft, filters it and gently feeds it into the dwelling via a ceiling-mounted diffuser. Clean, fresh filtered air with a lower moisture content dilutes, displaces and replaces contaminated and moisture-laden air.

Key features:

- Fully adjustable between 19l/s - 49l/s
- Low running costs
- Low sound level
- Complete with ceiling diffuser, flexible 2m duct and G4 filters

The PIV unit can also be set to 'Radon' mode in properties that are affected by high radon gas levels. The unit will run continuously to ensure supply of good indoor air to protect residents from harmful gases.

Technical specification:

- IPX2 rated
- Easy to install and commission

Dimensions:

H365 x W930 x D425mm

(For full details of dimensions please scan the QR code below to refer to the spec sheet)

lo-watt PIV system with heater

The Positive Input Ventilation (PIV) unit has been designed to prevent and treat condensation and mould quickly. It is perfect for refurbished properties thanks to it being easy to fit for installers and discreet for homeowners. The unit offers a quick and simple solution as it draws fresh air from the loft, filters it and gently feeds it into the dwelling via a ceiling-mounted diffuser. Clean, fresh filtered air with a lower moisture content dilutes, displaces and replaces contaminated and moisture-laden air. The PIV unit with heater comes with a heater fitted to the unit, this helps remove cold air entering the property. The controls allow the unit with 500W heater to be adjusted making it adaptable for different lifestyles.

Key features:

- 500W Heater
- Fully adjustable between 19l/s - 49l/s
- Low running costs
- Low sound level
- Complete with ceiling diffuser, flexible 2m duct and G4 filters

The PIV unit can also be set to 'Radon' mode in properties that are affected by high radon gas levels. The unit will run continuously to ensure supply of good indoor air to protect residents from harmful gases.

Technical specification:

- IPX2 rated
- Easy to install and commission

mixed flow fan

125mm mixed flow high performance extract fan suitable for use in restricted spaces such as ceiling voids traditionally found in refurbishments.

Key features:

- Integral foot plate provides secure, fast mounting
- Spigot designed for speedy installation of flexible ducting
- Mixed flow fans develop greater pressure than conventional axial fans making them ideal for use in ducted systems
- 3 Speed fan setting

Technical specification:

- IPX4 rated CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated with motor fitted with Thermal Protection

Product range details:

- Rated Voltage 220-240v-50Hz
- High Rated Wattage 48W
- Low Rated Wattage 28W
- High Speed Noise Level: 35dB(A) @ 3m
- Low Speed Noise Level 21dB(A) @ 3m
- High Speed: 500m3/h
- Low Speed: 240m3/h

Accessories:

- Wall Kit
- External wall grille
- Flexible Ducting
- Diameter of spigot: 98mm

Dimensions:

H230 x W175 x D260mm

tile fan range

tile fans

100mm axial fan which has a unique design that allows the fan to fit unobtrusively into any wall or ceiling. The tile design allows the fan to blend into the décor of the room. This unit is not suitable for Window mounting.

Key features:

- Unique tile design
- Long life motor
- Easy to install and maintain
- Quiet and Efficient

Technical specification:

- Meets the requirements of Building Regulation Document F
- IP24 rated, BEAB Approved, and CE marked in accordance with all the relevant EEC Harmonised Directives
- Double Insulated, class II motor fitted with thermal protection
- Hole Diameters: Wall 115mm
- Airflow: Wall 75m³/hr

quiet fan range

quiet fans

The Quiet Fan is the latest in domestic ventilation to incorporate a high extraction whilst producing an incredibly quiet running volume.

Designed for wall and ceiling mounting, this comprehensive range is ideal for bathrooms and toilets.

The unit also comes complete with a performance enhancing turning vane system located in the spigot to improve performance by maintaining a high output.

Key features:

- High quality ball bearing, long life motors continuously rated and warranted for a minimum of 30,000 hours or 3 years
- Manufactured using high impact or gloss ABS thermoplastics for strength and durability
- Decibel Level of ONLY 27dB(A) at 3m. Over 60% reduction in comparison to standard 4" (100mm) domestic fans
- An impressive extraction rate of 75m³/hr, 21 litres per second
- Low energy motor with a maximum consumption of 4.8 Watts
- The most environmentally friendly fan in the Sector range with an SFP of 0.24W/L/S
- Complete with integral backdraught shutters
- Complies with both Part F & L

Technical specification:

- Maximum Pressure: 23 p.a.
- Fan Speed: 2300 r.p.m.
- Sound Volume: 27 dB(A)
- Maximum Operating Temperature: 40°C

panel heater

panel heater

The 24/7 Panel Heater connects directly to the permanent electricity supply offering two heat output settings depending on your heating needs. The timer option allows user to select one of 12 pre-set programmes or create a customised 'DIY' heating programme. Wall fixtures are included.

Key features:

- Silent in operation
- Lot 20 compliant
- High efficiency of airflow with over 95% of used energy creating heat
- User friendly LCD display screen
- 12 pre-set programmes available
- 1 user defined programme available
- Programme and real-time clock memory function
- Thermostat for temperature setting (5°C-30°C)
- Adjustable temperature in Normal and Economic modes
- 24 hour On/Off Timer
- Anti-frosting function
- Ionizer function
- Child safety lock
- Over-heat safety protection
- IP24 rated

Technical specification:

- 230-240V (50Hz)
- CE, EMC, LVD, RoHS, ERP approval
- 15-18m³
- Weight 5.1kg (6.3kg packed)

Cat No	Watts	Heating Area	Size HxWxD (mm)

With integral 7 day 24 hour LCD electronic timer and controls

outside heater

radiant heater

The radiant heater is the ideal choice for those that want to use their outdoor space. It is great for pubs, cafes, bars, restaurants and installation at home with a heating range of 10-12m². The heater comes delivered with an easy-to-mount wall bracket and cable to speed up installation.

Key features:

- Instant heat from switch on
- Outdoor or indoor use
- Economical and easy to install
- Silent in operation
- No yearly maintenance cost
- Shortwave IR halogen lamp
- One second heat up time
- Precision heating directed where you need it
- Up to 5000 hours element life span
- IP65 rated to safely work in the rain

Dimensions:

H190 x W460 x D220mm (with bracket)

H190 x W460 x D113mm (without bracket)

Cat No	Watts	Heating Area	Size HxWxD (mm)

radiant heater

Great for home patios, pubs, cafes, bars, and restaurants, the 3kW unit is also ideal for workshops and warehouse maintenance areas.

Key features:

- Instant heat from switch on
- Outdoor or indoor use
- Economical and easy to install
- Silent in operation
- No yearly maintenance cost
- Shortwave IR halogen lamp
- One second heat up time
- Precision heating directed where you need it
- Up to 10000 hours element life span
- Easy-to-mount wall bracket and cable supplied

Technical specification:

- Heater Wattage: 3kW
- IP54 rated to safely work in the rain

Product range details:

- Lamp Type: Carbon fibre
- Grille: 304 stainless steel
- Housing: Power-coated is black aluminium
- Weight: 4.2kg

insect killers

portable insect killer

The long life portable insect killer uses high efficiency LEDs to attract bothersome insects. Made from fire proof ABS, fade, crack and scratch resistant high quality aluminium this insect killer has a coverage of up to 50m².

Key features:

- High efficiency long life (50,000 hrs) LEDs for attracting insects
- Coverage 50m²
- ABS fire proof plastic as material or high safety
- Micro switch for high safety
- Extract fan for high efficiency
- Includes brush for cleaning and maintenance
- For all safety instructions see the specification sheet

Technical specification:

- Approved to EN60335-2-59 (Insect Killer standard), CE/GS/ROHS

Product range details:

- Power: 5.5W
- Weight: 0.7kg
- Approved to EN60335-2-59 CE/GS/ROHS

Dimensions:

H210 x W200 x D75mm

Cat No	Coverage Area	Size HxWxD (mm)

insect killer

The long life insect killer uses Energy efficient UV-A lamps to attract bothersome insects. Made from fire proof ABS, fade, crack and scratch resistant high quality aluminium this insect killer has a coverage of 80-150m².

Key features:

- Durable ABS fire proof plastic on side panels
- Large removable collection tray for easy cleaning
- High quality aluminium, easy to clean.
Crack, fade, scratch and oil resistant
- Full protected outer mesh
- Energy efficient UV-A lamp
- Suspendable or free standing
- For all safety instructions see the specification sheet

Technical specification:

- Approved to EN60335-2-59 (Insect Killer standard), CE/GS/ROHS/REACH/PAH(TUV)
